5. Framework Coverage

SOC 2 Coverage

—%

NIST CSF Coverage

—%

Framework coverage not yet measured. Connect an assessment to surface SOC 2 and NIST CSF scoring on this report.

Indicative Estimate — Not a Quote. Premium figures are derived from a heuristic model and do not constitute a binding insurance quote. Loss exposure numbers are computed via a FAIR Monte Carlo simulation and reflect best-effort estimates based on current organizational profile and open findings. Consult a licensed broker or underwriter for a binding quote.
